

Income Tax - Refund Status

When I login to get my refund information on your Web site, why is the amount displayed under "Past Years Refund" different than my refund from last year?

The Colorado income tax refund amounts reported on our [Tax Account Information Service Web site](#) and on our automated phone system [(303) 238-FAST (3278)] **DO NOT** include adjustments made to your final refund. The prior year(s) refund amounts reported on our automated systems and on your Colorado 1099-G are the same. See [1099G](#) for more information.
